Background

Every Day Ministries was started in 2006 to equip and empower Pastors and leaders of Churches in the Dominican Republic of all denominations with resources to see them thrive. Today they are working with over 350 churches in the north-east. They have helped build 35 churches, have established a pastoral training center that now served churches in the Caribbean, have completed community development & transformation projects, child sponsorship, and land development projects.

As a church we support this ministry and will be going to help with the ongoing task of serving churches in the Dominican Republic with children's programs, special services, and hands-on building projects.
